I can't eat no more and I lost my appetite
Can't go to sleep, mama when I lay down at night
Oh baby, what am I going to do?

Come back, baby, I ain't bad no more
I've learned something, I didn't know before
Oh baby, what am I going to do?
Well, I done find out that no one else will do but you

I'm so unhappy, oh, baby can't you see
Ever since you've been gone
Everything goes wrong with me

It's bad luck and trouble everywhere I go
What I go through is no body knows
Oh baby, what am I going to do?

I got bricks in my pillow, stones on my bed
I wish I had a listen to everything you said
Oh baby, what am I going to do?
Well, my present and future all depends on you

You know I should have loved you more
I know I didn't treat you right
Well, a sweet woman like you
Need loving every day and night

Lay that thing on

Oh baby, what am I going to do?
Come back, baby
And I will treat you nice and true
