I can't believe  
Just how easy it was for you to get over me  
So I'll try and pretend I don't need you

But it hurts just the same  
And I'm trying to hide the pain cause I'm so afraid  
Of the things I might say if I see you

Take it slow  
They same time helps you heal but I'm not feeling any  
better  
They don't know  
I guess time will reveal if we were meant to be together

But I've been waiting for this for so long  
Suddenly the pain in my chest is all gone  
It's got me singing oh  
I'm gonna make it out alive

And I know we'll never be the same  
But I'd take that second chance if it ever came  
You got me singing oh

I'm gonna make it out alive

I've been waiting for a love like this  
To erase and cover up all of my mistakes  
Losing patience going down the list  
Falling over and over and over again

But I've been waiting for this for so long  
Suddenly the pain in my chest is all gone  
It's got me singing oh  
I'm gonna make it out alive

And I know we'll never be the same  
But I'd take that second chance if it ever came  
You got me singing oh  
I'm gonna make it out alive

Well I'd cut you off if I though you'd even see

Just say the word and I'll drop it on a dime  
I'll make it work  
Leave myself wide open  
To feel my heart beat next to yours
