Is it over for good?
Is this what we've got left
Everything I put into this
Is more than I kept
And maybe yeah I'm miserable
I'm broken I'm broken
Well love's just a game girl
And I am the token (YEAH!)
(Chorus) Tell all your friends I'm the next big thing ;]
Tell all of them every word I sing
Make sure they know all the trouble I bring
Cause I'm just a player and love is my favorite game
So go tell all your girls
How I'm not that guy
Who would wait around all day
Wondering why
You had it gone
But yeah you know the rest
I am the one who
Makes your best friend lose her breath ;]
Chorus
You can talk all you want
But I've got dirt on you too
I'll make a scene baby please
I'll tell the whole world about you!
You can talk all you want
But I've got dirt on you too
I'll make a scene baby please
I'll tell the whole world about you!
Chorus
Tell all your friends I'm
Gone
