[Verse 1]

I'm standing on a sidewalk
In the middle of the city.
Feels like its 3 AM
And I can hardly breathe.

Blinded by the pretty lights
That illuminate this august night.
Feels like I've been taken
For a long, long drive.

[Pre-Chorus]

Im not out to prove anything to you,
I know where I stand.
Im not out to set the record straight,
Just know that I am

[Chorus]

Fully aware
Fully aware
Fully aware
Fully aware

[Verse 2]

Im a man of integrity
No matter what this world says of me.
I've been up in the atmosphere
And in the depths of the sea.

Mama said since the cradle rocked
To live my life outside the box.
But every day right up to now
I've been forced into it.
