The Ones

Lady Greengrass

She lifts her dress
and floats to dreamland
makes love to the sky
She lets her hair hang down
as the weeds go round
lady greengrass

Puff the grass is tangerine
Puff the sky is suddenly green
her eyes breath in a state of mind
she's beginning to fly
she's beginning to fly

licking lollypops
catching moondrops
bright and beautiful

big fat love-ins
groovy free-ins
for lady greengrass

puff the trees turn tangerine
puff the sky is suddenly green
her eyes breath in a state of mind
she's beginning to fly
she's beginning to fly
she's beginning to fly
to fly... to fly.... to fly.....
