It was a lonely summer  
Where I have been your shelter  
Following your footsteps  
Will you be my first regret?

Sorry, if I'm foolish  
Making myself secrets  
Seems to come between us  
And we always leave them there, my child  
Always leave them there

Do you break my heart? Do I have to go?  
Does it mean we've loved somebody?  
(Who will love you?)  
Do we have to cheat? Do we have to lie?  
Does it mean I've loved somebody?  
(Now you're falling)

Do we learn to cry? Do we have to hate?  
Does it mean we've loved somebody?  
(Who will hold you?)

Waiting in the cold like this  
Always feeling nervous  
Hiding in the shadows  
I'm sure I can't get caught, you know

I can't keep together  
Any of my thoughts  
How they feel like [Incomprehensible]  
But I just came round to talk, you know  
Always here to talk

Do you break my heart? Do I have to go?  
Does it mean we've loved somebody?  
(Who will need me?)  
Do we have to cheat? Do we have to lie?  
Does it mean I've loved somebody?  
(Now I'm losing)

Do we learn to cry? Do we have to hate?  
Does it mean we've loved somebody?

(Who will hold me?)  
Does it mean I'm real? Does it make me sane?  
(Now I'm fighting)  
Amore si

Do you break my heart? Do I have to go?  
Does it mean we've loved somebody?  
Do we have to cheat? Do we have to lie?  
Does it mean I've loved somebody?

Do we learn to cry? Do we have to hate?  
Does it mean we've loved somebody?  
Does it mean I'm real? does it make me sane

Do you break my heart? Do I have to go?  
Does it mean we've loved somebody?  
(Who will need me?)  
Do we have to cheat? Do we have to lie?  
Does it mean I've loved somebody?

Do we learn to cry? Do we have to hate?
