"Always Them"

The hate in your eyes
As one more victim dies
The ghetto in flames
Another day of shame
Will you kill them all
'cos they're not like you?
Whether someone's skin is black
Or he calls himself a jew
It he comes from a foreign land
What's all that in you?
(Chorus)
All are equal - stop the bigotry
All are equal - lace is only ideology
Misfortune mayhem
You blame it all on "them"
They're dirty and mean

You want your country clean
What does it mean "clean"?
If they're not like you
Then they don't belong
Everyone's a foreigner
Almost any place he's in
Tolerance is the better way
In friendship all win
(Chorus)
(Solo: Axel)
Soveto, the Klan
Treblinka in the end
These names they spell out
What you are all about
(Repeat 2nd verse)
(Chorus)
(Solo: Andy)
(Chorus 2 times)
