I went to a football game
Anticipating victory
But they where so lame

Lost the game and slipped a notch
That's when I began to drink
I was close to dying

Watch it! I've had a bad day
My team had falled and I lost the day
World, I just hate you
I did my best to follow the rules
Watch it! I've had a bad day
My team had falled and I lost the day
World, I just hate you
I did my best to follow the rules

Freeway bound, what do I see
Fifteen cops behind of me

They must know I'm wasted

They got me, balls to the wall
Took my blood, license and all
Rotting here in jail

Watch it! I've had a bad day
My team had falled and I lost the day
World, I just hate you
I did my best to follow the rules
Watch it! I've had a bad day
My team had falled and I lost the day
World, I just hate you
I did my best to follow the rules

I got home and found a note
She left me for another guy
Just piss off and die - You bitch!
