I take my chances!
I'm well educated
I earn good wages
Mothers-in-law craves for me
I take my chances
My teeth are shiny
My face is handsome
There is no doubt about it
I take my chances!
Last night: a new sensation
This beauty hit my eyes
Dressed in the blackest shadow
A devil in disguise
What can I do to draw your eyes attention?
What can I do not to make you realize?

The beauty and the beast
A mystery unrevealed
The beauty and the beast
Both hide inside of me
The beauty and the beast
Control my life

I got to get you!
You are a bombshell
A cute maneater
A creature of the nighttime
I got to get you
Fuck the conventions
Fuck for devotees
Crushed underneath your high-heels
I got to get you!
Longing, I'm craving for you
But you don't notice me
My shiny life means nothing
To you, you just won't see

What can I do to draw your eyes attention?
What can I do not to make you realize?

The beauty and the beast

A mystery unrevealed
The beauty and the beast
Both hide inside of me
The beauty and the beast
Control my life
The beauty and the beast
A mystery unrevealed
The beauty and the beast
Both hide inside of me
The beauty and the beast
Control my life

I feel a changing!
This magic potion
From fifteen sixteen
Runs through my boiling veins now
I feel a changing!
It's so much bolder
And yet I hold her
My blood is running colder
I feel a changing!
Drinking is our business
We queue the welfare line
We spend our days consuming
Magical beer and wine

What can I do to draw your eyes attention?
What can I do not to make you realize?

The beauty and the beast
A mystery unrevealed
The beauty and the beast
Both hide inside of me
The beauty and the beast
Control my life
The beauty and the beast
A mystery unrevealed
The beauty and the beast
Both hide inside of me
The beauty and the beast
Control my life
