Death! Kill! blood will flow  
From the ones who play for money  
Sold! Out! It's time to pay  
You're gonna die no other way  
Blind! Wake up man you've got to hits  
Change! Now it's time to end this shit  
Make! Way! The time's at hand  
To ride the world of milk metal bands  
Slow! Death! The only way  
A fitting end to their treacherous game  
Traitor Traitor Traitor - a sonic betrayal  
Traitor - it seems you've faked  
You! Think! The world adores you  
With your make up and silken pants  
Wake! Up! You've had a nightmare  
Your record didn't sell so well

Blind! Wake up man you've got to hits  
Change! Now it's time to end this shit  
What's! This? Demand declining  
No more money in your pocket book  
What! Now! Looks like it's over  
Gonna throw your lipstick away  
Traitor Traitor Traitor - a sonic betrayal  
Traitor - it seems you've faked  
You sold your soul to money  
Thrash! Is what we'll play  
The age of truth upon us  
Beer! is what we need  
We've got no pity for ya  
Trash! Is what we'll play  
Now death's your final payment  
Mosh! It's up to you  
Traitor. Liar! Loser!
