

Fastest Kid Alive, The "Summer Forever"

Visit "[Summer Forever](#)" on MotoLyrics.com

Can't this wind take us far away from here?
Can't this wind take us far away?

Snow illuminates the night
Like God left on the lights to this town
The lights are blinding me, the snow is covering
everything
I'm stuck inside the midwest, trying to write a hook to
get me out.
Sing this verse and sing this song
It's taking me way too long

Can't this wind take us far away from here?
Maybe to Vegas where the streets are paved with
lights.
Oh, oh!
My head is spinning from this new year's breeze
But the thought of summer forever well it brings me to,
It brings me to my knees.

These tires are spinning like a record
And this track is taking us away from lips that are
beaten and cracked.
Hey Mercedes falls softly on these speakers
We won't stop tonight
Till we reach the shores and windshields,
that aren't painted gray and white.

Can't this wind take us far away from here?
Maybe to Vegas where the streets are paved with
lights.
Oh, oh! My head is spinning from this new year's
breeze
But the thought of summer forever well it brings me to,
It brings me to my knees.

Can't this wind take us far away from here?
Can't this wind take us far away?
