Those words you forget
To anniversary songs.
Bottles bite back.(i think?)
Your tolerance wronged.
Your good intentions count for little anymore.
If you're sorry,
Why wish war?
Im not fully convinced,
There's something wrong with this.
Could another point of view,
Biased and untrue,
Tear me,
away from you?
Will you be my Valentine,
If I'm a world away?
Apologies are breaking me.
Constants aren't so constant anymore.
Two days to wait for calls to come through.
Tonight for me translates to yesterday to you.
You Bend and you wave.
You're barely away.

Wish i could say tonight,
When you bend and wave goodbye.
"Take me with you."
Will you be my Valentine,
If im a world away?
Apologies are breaking me.
Constants aren't so constant anymore.
Constants aren't so constant anymore.
Will you be my valentine? (if im a world away)
Will you be my valentine? (if im a world away)
If I'm a world away (if im a world away)
If I'm a world away (if im a world away)
Constants aren't so constant anymore
