You're my ginger
You're my fire
You take me higher, yeah
Our situation's gonna blow
You're my ginger
You're my fire
You take me higher, yeah
Our situation's gonna blow

It's taken me a while
To realize
Just exactly it's what I'm chasin
I try to say
You move too fast, you run away
And all I do is fall back
Now I think I'm shy
I realize I'm not exactly what you needed
I try to speak
My thoughts too fast, they get away
Only when around you

Let's get away, far enough
Get away, yeah, from it
Let's get away, far enough
Yeah, you know it now
Let's get away, far enough
Get away, yeah, from it
Yeah, I'll make it work
'Til you know that you can love me

You're my ginger
You're my fire
You take me higher, yeah
Our situation's gonna blow
You're my ginger
You're my fire
You take me higher, yeah
Our situation's gonna blow

If fate lets me I'll try
To understand

Just what exactly what I'm facin
I aim too high
You move too fast, you're on your way
And all I do is fall back
Now I close m eyes
I don't see why
I'm not exactly what you needed
I try to speak
My thoughts too fast, they get away
Only when around you

Let's get away, far enough
Get away, yeah, from it
Let's get away, far enough
Yeah, you know it now
Let's get away, far enough
Get away, yeah, from it
Yeah, I'll make it work
'Til you know that you can love me

You're my ginger
You're my fire
You take me higher, yeah
Our situation's gonna blow
You're my ginger
You're my fire
You take me higher, yeah
Our situation's gonna blow
