I was driving in my car
When I heard the loud guitar
Of the band you used to hate
You said so on our date

Well the song was really bad
But it made me think of you
I believe that what we had
Was a miracle of two

I don't wanna know the reason why you ran away
I don't wanna show the tears I she'd on you

I'm moving on I know I'm done
I'll find a place where I belong
I'm not afraid Just like you said
I've been disgraced just far too long

Why was it wrong to stay with you
Why was it wrong to love you back
I'm not the one who chose this way
I'm not the one who pulled you back
And now
I'm still here Without you

I was going for a walk
When you called this afternoon
"I don't know if we should talk
But I have to see you soon"

Well you know that it's too late
I have grown away from you
And I closed my iron gate
I'm better off alone

I don't wanna know the reason why you turned away
I don't wanna show the blood I she'd for you

I'm moving on I know I'm done
I won't look back until you're gone
I'm not afraid Just like you said

I'll find my peace under the sun

Why was it wrong to touch your face
Why was it wrong to keep my space
I'm not the one who put you down
I'm not the one who let you frown
But now
I'm still here Without you

I know people like the games
You can't make them stay the same
I don't see how love can end
We should all stop to pretend
No more lies and no more pain
I can't stop the fate again
I will find my peace somewhere
I will find a way - so I'll smile

I'm moving on I'm not afraid
I'll find a place where I belong
I know I'm done Just like you said
I've been disgraced just far too long

Why was it wrong to stay with you
Why was it wrong to love you back
I'm not the one who chose this way
I'm not the one who pulled you back
And now
I'm still here Without you
