To the road I did take
Trembling as the ground shakes
Under my feet cracked in a stone heal
Never ending motion
Way across the ocean
Into your devotion
Long have I gone so far from my home
Chorus:
What to do with this love that I'm in
I have given you all of my soul
Flying all my life like a rose in the wind
Tell me why I'm always alone
On my way back home
(Indonesian spoken)
Dreaming always begins
Find a door that's opening
Something there is shining
The light in your eyes when you were all mine
All alone as I wake
Moving to a new place
Shivering as I trace
A road of my own cut by a deep cold
(Repeat chorus)
Hang on to me tight and a rose in the wind
Will be wherever you go
On your way back home
(indonesian spoken)
Can I take you back there?
Drifting on the warm air
Say you'll follow anywhere
All of our nights into the jade skies
I'll be true to you
Flying over the moon
Lying in the bamboo
I'll always know the light in the window
(repeat chorus)
Alone
