Hembusan bayu antar dirimu

Let me be the blue inside
Of the flame that you feel
The heat to hold on till you are near
Biarkan kujadi mentari

Keep me in your smile so sweet
When you turn off the light
And we'll be together in all our nights
Dan kuhangatkan semua mimpi

Dream of me
Before you go I'll show you just how
I'll make you dream of me
Till night is over

Dream of me
Just a breath away in the dark
I'll make you dream of me
Come to me now

We move so free and easy
Just like it should be
Just you, can give me all that I need
Hanya dirimu yang kunanti

I'll fly, find my way back to you
In your deepest hours of sleep
A nightride to my favourite fantasy
Semua keinginan hati

Dream of me
Before you go, I'll show you just how
I'll make you dream of me
Till night is over

Dream of me
Just a breath away in the dark
I'll make you dream of me
Come to me now

My desire never ends
Will you meet me where the shadows blend?
Light the stars up in my sky
Got to know that you are still mine

Dream of me
Before you go, I'll show you just how
I'll make you dream of me
Till night is over

Dream of me
Just a breath away in the dark
I'll make you dream of me
Come to me now

Take me with you when you go
When you get so lonely and so cold
Hold on to me every night
Close your eyes, let your love go flying
Let your love go flying
