Underneath the sky  
All I see is blue  
The clouds inside my eyes  
Only caused by you

For what we used to be  
The bound we just undo  
Before I set you free  
I just need you too

Lie to me  
I shall believe  
Lie to me  
I need to hear  
That you were wrong  
That you regret  
I shall believe  
Lie to me

That I swept off your feet  
And love will start anew  
Words I want to keep  
Though I know it;s not true

Just say I was the one  
There's nothing like we're two  
But strangers we'll become  
Before we are throught

Lie to me  
And I shall believe  
Lie to me  
There're words I've longed  
To hear  
Lie to me  
And I'll agree  
Lie to me  
Swear I believe
