Boys like you, can stop playing with the toys  
Girls like me won't stop trying to change your world  
If you wanna be my man (Ooh)  
I will make you understand (Ooh)  
If you wanna be my man  
Quit the games you're playing

Bridge:

I've been watching you  
Secretly lady, just like a hunter  
I've been watching you  
Looking for someone that you can conquer  
I've been watching you  
Bein' a player  
If you wanna be my man  
You have got to cease the chasing game

Refrain:

Won't you drop your guns, arms in the air baby (yea)  
Shake it up for once, so do you dare?  
If you were my man, If you were my man  
Won't you drop your guns for me? (for me)

Girls (girls) like me (like me) will keep (will keep) on  
falling for bad,  
Boys (bad boys) like you (like you), think you (think you)  
can be rockin' my world (my world)  
But if you wanna be my man (Ooh)  
You could better understand (Ooh)  
If you wanna be my man  
Quit the games you're playing

Bridge:

I've been watching you  
Secretly lady, just like a hunter  
I've been watching you  
Looking for someone that you can conquer  
I've been watching you  
Bein' a player  
If you wanna be my man  
You have got to cease the chasing game

Refrain:

Won't you drop your guns, arms in the air baby (yea)  
Shake it up for once, so do you dare?  
If you were my man, If you were my man  
Won't you drop your guns for me? (for me)

Later to set me free (set me free)  
Better to set you free (set you free)  
Better trying maybe (trying maybe)  
Don't you know, you should know (Hey, your breakfast)  
If you wanna be my man (lemme talk to ya)

Pras Michael:

Let me buy you a drink, better yet the bar  
Listen I wanna be where you are  
I know, don't really know who you are  
But we can love in the club, make love in the car  
Go back to the club, make it pop in the club  
Look. Stop. Come give me a hug  
You may not really know who I am  
But trust me, I'm gonna be your man

Now I'ma tell you, like the G told me  
Catch. Lose everythin' around me  
I see the ring, but it's really no thing.  
Hold'em off you kill a doover less fame  
Hold up. Watcha mean you got a man?  
Who's American, that's me ain't Japan  
Creole over my pizza pan  
You know, I know, I'm your number one fan

Refrain x2:

Won't you drop your guns, arms in the air baby (yea)  
Shake it up for once, so do you dare?  
If you were my man, If you were my man  
Won't you drop your guns for me? (for me)

Won't you drop your guns, arms in the air baby (yea)  
Shake it up for once, so do you dare?  
If you were my man, If you were my man  
Won't you drop your guns for me? (for me)
