There's no song for you
i'm out of stories
Since i was this through
what's there to tell about you and me

No song for you
i've nothing to say
my heart was in two
but now the clouds are gone from my days

chorus :
I've over gained the pain
No useless tears again
No more things to blame
Not even something to pretend
The anger's gone away
There's nothing left to say
The good of yesterday
had made me who i am today
What's the use of regret?
we were just imperfect
Oohh

There's no song for you
I've made this promise
from out the blue
When i remember that first kiss
No song for you
So don't look for it
The things i can't do
I can't turn back to the live i've wasted

chorus

Coz now i know that we were just imperfect
Oohh
What else could i expect?
Coz we were just imperfect
Oohh
there's no more for you
no song for you

there's no song for you
there's no there's no there's no song for you
