The rise and the fall  
Anything in between the two  
It's almost like an exercise

The high and the low  
We have seen before  
Whenever love and hate collide

I can't live without  
Our whispers and our shouts  
The reason my heart's beating fast

Don't care if it's hell or heaven  
Cause I'm here with you  
Life's a rollercoaster ride and  
I'm not scared with you

It's alright there's nothing we can't do  
Reaching out can always pull this through  
It's along as we are two

All that is said and done  
When all the hope is gone  
There's always something in your eyes

You catch me when I fall  
As far as I can recall  
With you I'm gravity defied

This I can't get enough  
What's good when it's rough  
The reason my heart's beating fast

Don't care if it's hell or heaven  
Cause I'm here with you  
Life's a rollercoaster ride and  
I'm not scared with you

It's alright there's nothing we can't do  
Reaching out can always pull this through  
It's along as we are two

As long as we are two  
As long as we are two

(Life is a rollercoaster ride  
Life is a rollercoaster ride) I'm here with you  
(Life is a rollercoaster ride  
Life is a rollercoaster ride)

It's alright there's nothing we can't do  
Reaching out can always pull this through  
It's alright as long as we are two  
As long as we are two
