This life is light  
its like burns bright  
so i'll take it day by day  
and let it be  
and everyone would see  
how good it feels  
so they'll see the world for all that it could be

let the sunlight in  
i wanna feel it from within  
u spin me around and make me feel  
like i could shine...  
shine...

so what do u say  
if the sky turn gray  
with a kiss u send the rain cloud on their way

oh let the sunlight in  
i wanna feel it from within  
u spin me around and make me feel  
like i could shine  
shine...  
shine...
