Want to break me down
Want to tear me up
Want to scream and shout
Well you can try

Want to let me down
Want to leave me out
Want to push me 'round
Go a head and try

Want to show your pride
Want to push me out
Wan to break it up

No matter how hard no I won't ache
No matter how far this I will take
No matter how long no I won't break
Ã¢â¬ÏCause you'd only make me stronger

Want to shut me up
Want to pull me down
Want to scratch me off
Go a head and try

Want to knock me out
Want to put me down
Wan to kick me out
Yes you can try

Want to scream out loud
Want to give me up
Want to burn this down

No matter how hard no I won't ache
No matter how far this I will take
No matter how long no I won't break
Ã¢â¬ÏCause you'd only make me stronger
