And the nights grow colder
And the days get older
And the nights grow colder

So many times, I thought
Of giving up, better luck this time
Things aren't gonna be this way

And everything, I felt from my heart
From the start, I knew it then
I didn't have the strength to say

Turn around to the sound of the voice that you're
flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead

Looking up all my life
But I just saw the sky
I couldn't look beyond myself to realize

That the pain you come from is the
Pain you go through and you will do
Anything you can until you

Turn around to the sound of the voice that you're
flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead, yeah

Turn around to the sound of the voice that you're
flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead, yeah

Turn around to the sound of the voice that you're
flowing to
It's inside your head
If I said that I would then I could

And I shouldn't lie 'cause I'd end up dead, now

Turn around to the sound of the voice that you're
flowing to

It's inside your head

If I said that I would then I could

And I shouldn't lie 'cause I'd end up dead

And the nights grow colder

And the days get older

And the nights grow colder

It's inside your head

It's inside your head

It's inside your head

It's inside your head

(It's inside your head)

Turn around to the sound of the voice that

Turn around to the sound of the voice that

(It's inside your head)

Turn around to the sound of the voice that

Turn around to the sound of the voice that

(It's inside your head)

Turn around to the sound of the voice that

Turn around to the sound of the voice that

It's inside your head

Turn around to the sound of the voice that

It's inside your head, yeah

(It's inside your head)

Turn around to the sound of the voice that

Turn around to the sound of the voice that

(It's inside your head)

Turn around to the sound of the voice that

Turn around to the sound of the voice that

(It's inside your head)

Turn around to the sound of the voice that

Turn around to the sound of the voice that

Turn around to the sound of the voice that

Turn around to the sound of the voice that

Turn around to the sound of the voice that

Turn around to the sound of the voice that

And the nights grow colder

And the days get older
