This world is a wrap-around skirt  
This world is a wrap-around skirt  
And i'm gonna throw it off  
I'm gonna throw it off  
I'm rising up rising up  
Maybe i worry cause i know how things work  
I know how things can work out  
Maybe they don't  
Maybe that's how

This world is a fickle young girl  
This world is a fickle young girl  
It's high time we married her off  
How about to gassy old jupiter  
Maybe i worry cause i know how things work  
I know how things can work out  
Maybe they don't  
Maybe that's how

Someone draw me a map so i can get back  
To the edge of the world  
And make my place in negative space  
Among my kin  
That's the only way to begin
