Frankly modest, speech dishonest  
Eyes upon us like a vulture in the sky  
Hovering carcass, molding earth, filthy birth after

Friction based upon fiction replacing friendship  
Untrueness, speculation, concentration  
Heresy is controlling us, all this flagrant foul stench  
Upon us overwhelming everybody like an imaginary  
forklift father

You point your finger as a scolding motherfucker,  
sucker  
Blamin' evil upon another, under that pedestal  
You hold yourself so high above us, I can't imagine  
what it's like  
To not give a shit about nothin'

Lives the whole damn story led in motion  
Peers are punished for their individuality separating us  
all

I can't believe my friends would make such a lie  
Even though it was I that dishonored your trust  
But it's done, can't change the past  
I'm gonna make us last, just believe in me  
And I'll show you that they're not so true

You point your fingers as a scolding motherfucker,  
sucker  
Blamin' evil upon another under that pedestal  
You hold yourself so high above us, I can't imagine  
what it's like  
To not give a shit about nothin', but that

Frankly modest, speech dishonest  
Eyes upon us like a vulture in the sky  
Lives the whole damn story led in motion  
Peers are punished for their individuality separating us  
all

You're frankly modest, you're speech dishonest  
Your eyes upon us like a vulture in the sky

Because you're, you're frankly modest, you're speech  
dishonest  
Your eyes upon us like a vulture in the sky

Live, lives the whole damn story led in motion  
Peers are punished for their individuality separating us  
all

Lives the whole damn story led in motion  
Peers are punished for their individuality separating us  
all
