frankly modest speech dishonest eyes upon us like a
vulture in the sky
hovering carcass moulding earth filthy birth afterlife
friction
based upon fiction replacing friendship untrueness
speculation concentration heresy
is controlling us all this flagrant foul stench upon us
overwhelming everybody like an imaginary forklife
brother
you point you finger as a scolding motherf*cker sucker
blaming evil
upon another under that pedestal you hold yourself
so high above us i can't imagine what it's like to not a
give a sh*t about nothin live
the whole damn story led in motion peers are punished
for their individuality separating us all
i can't believe my friends would make such a lie even
though it was
i that dishonored your trust but it's done
i can't change the past i am gonna make us last just
believe in me
and i'll show you that they're nothing true
