Crawling Away...
Crawling Away!

If I was the one for you, and everything you said was true
Then why did you take me out, and have all this doubt
Two words can save yourself, three words will kill your wealth
It's getting colder, It's getting closer

(Chorus)
(Crawling Away)
Crawling Away from the tunnels of hatred
Running away from the time of your life
Crawling Away! X2

If I was the one for you, and everything you said was true
Then why did you take me out, and have all this doubt
Two words can save yourself, three words will kill your wealth
It's getting colder, It's getting fucking closer

(solo)
I love you, I hate you, I know you, I forgot you
I took you, I fucked you, I left you, I stayed with you!

(Chorus)
