Frankly modest
Speech dishonest
Eyes upon us like a vulture in the sky
Hovering carcass
Molding earth
Filthy birth afterlife
Friction based upon fiction
Replacing friendship
Untrueness
Speculation
Concentration
Heresy is controlling us
All this flagrant foul stench upon us
Overwhelming everybody like an imaginary forklife
brother
You point you finger as a scolding motherfucker sucker
Blaming evil upon another
Under that pedestal you hold yourself so high above us
I can't imagine what it's like to not a give a shit about
nothin

Lived the whole damn story
Led in motion
Peers are punished for their individuality
Separating us all

I can't believe my friends would make such a lie
Even though it was I that dishonored your trust
But it's done
I can't change the past
I am gonna make us last
Just believe in me and I'll show you that they're nothing
true
They point their fingers as a scolding motherfucker
sucker
Blaming evil upon another
Under that pedestal they hold themsevles so high
above us
I can't imagine what it's like to not a give a shit about
nothin
But they're

Frankly modest
Speech dishonest
Eyes upon us like a vulture in the sky

Lived the whole damn story
Led in motion
Peers are punished for their individuality
Separating us all

You're frankly modest
You're speech dishonest
You're eyes upon us like a vulture in the sky
Because you're frankly modest
You're speech dishonest
You're eyes upon us like a vulture in the sky

Lived, lived the whole damn story
Led in motion
Peers are punished for their individuality
Separating us all
Lived the whole damn story
Led in motion
Peers are punished for their individuality
Separating us all
