on your feet  
rush rush  
to the street  
rush  
face defeat  
as it no one makes it out alive, still try  
flee the scene  
hush hush  
be discreet  
hush  
Go unseen unlike very breath you take  
can be as the clerk said passing by  
like a dream  
such  
nothing's what it seems  
much  
just deceit  
as if time could stop your stride now free outside  
to the beat  
pump  
skipping ever speed  
bump  
there's no leaves  
but if the walls you left behind could talk they'd  
probably only cry  
these are the days you cant forget  
these are the times you can regret  
this is your time for no surrender, surrender  
this is your chance to do or die  
this is your path so run or hide  
this is your time for no surrender, surrender  
like the breeze  
rush rush  
down the street  
rush  
to fast to freeze  
as if no one makes your shadow as a lie  
ware and peace  
hush hush  
still discreet  
hush  
mentally

like your train of thought implies  
just one manifest the signs comply  
like a dream  
clutch  
gripping memories  
such  
vividly  
the sun'll settle east to the park where you'd reside  
to the beat  
touch  
closing in on me  
much  
you can see  
obvious now do or die  
beneath you're free to catch a ride  
these are the days you can't forget  
these are the times you can regret  
this is your time for no surrender, surrender  
this is your chance to do or die  
this is your path so run or hide  
this is your time for no surrender, surrender  
deeper shade of sound  
now unburied catalyst arriving  
she reads eastern bound  
like in movies you're now all aboarding  
these are the days you can't forget  
these are the times you can regret  
this is your time for no surrender, surrender
