So set to everyone did it not occur to you?  
wake up empty shell, someone to call unto to,  
good days refuse to dream,  
the blankets still asleep,  
concealing every thought till you uncover me,

could it be? that im fading far away straight out...

No truth i can confide, no truth that i can sense,  
passing time i cant recall the truth it surfaces,  
Open minds, open hearts open now and fall apart

Could it be that im fading far away straight out of it,  
ill, ill be there burning you bare X4

No truth i can confide no truth that i can sense  
passing time i cant recall the truth it surfaces  
the truth it surfaces  
the truth it surfaces  
the truth it surfaces  
the truth it surfaces

Could it be that im fading, far away straight out of it  
Ill, ill be there burning you bare X4  
burning you,  
burning you,  
burning you,  
burning you,
