Smile

Can't you see I'm still me, entire authority  
Same philosophy, enjoying life as much as  
I can I will

Trying to create that contagious smile  
With that passion that I long to, succeed in my ways  
Days pass by, not gonna sit here no more, no more  
No more, more no more, no more, no more, no more

Won't you see your not me why would you want to be  
You're an individual  
On your own, do what you want, 'cuz you want to

Trying to create that contagious smile  
With that passion that I long to, succeed in my ways  
Days pass by, not gonna sit here no more, no more  
No more, more no more, no more, no more, no more

Trying to create that, contagious smile that I long  
To succeed in my ways  
Days pass by, I'm not gonna sit here no more, no more  
No more  
No more  
No more
