"For You"

Visit "[For You](#)" on MotoLyrics.com

You are all I see
Sweet obsession in my soul
Fill each moment with your voice
Breathe your beauty into me

Would I die for you
No I live for you
You know I do
You know I do

You are all I know
Your mouth is all I taste
My breast between your lips
My tongue upon your waist

Would I die for you
I live for you
You know I do
You know I do

And though you never will be mine
I will live to know
That you have touched me
Once upon a time

You are all I am
And everything I feel
Your words are all I understand
But you're not real

Would I die for you
I live for you
You know I do
You know I do, I do
