March around Jericho loved the music and fell
Into your arms breathless
Heard a sound, shut my eyes so tight
Felt the wisper of a storm coming

Ohh funny how
Spent this time waiting around
Ohh it's a lie
Everything you felt till now

Saw her dancing oh the floor gave way
Opened it's mouth to say her name
I saw her falling, cast away, cast away
And she learned to fly one day

Ohh funny how
Spent this time on the ground
Ohh it's a lie
Everything you felt till now

Same place I've always been
I'm just lost on this roads again
And just as I got near the end
I keep falling in the holes you left in me

Ohh funny how
Spent this time lashing out
Ohh it's a lie, it's a lie
Everything you felt till now

Funny how
Funny how
Funny how
