What is this all about?
Crossing this river now,
Rushing through my blood (my blood)

What do you need me for?
Funny you'll never say,
And still I give you more, than ever
*Meet me in the water
I will let you wash over me
Meet me in the water
I'll be waiting
What is this all about?
Words they just float away,
Just when I thought I'd drowned, you save me
*Meet me in the water
I will let you wash over me
Meet me in the water
I'll be waiting
What is this all about?
Crossing this river now,
Rushing through my blood
*Meet me in the water
I will let you wash over me
Meet me in the water
I will let you flow through me
I'll be waiting
