Wendy is in love with him  
She's gone, she's gone

Forced myself out of bed this morning  
When I woke up I could see wet garden  
There's a thing called happiness  
And there's a thing that people call denial

I think it's gonna rain here  
I hope it's gonna rain here  
Just before the pain sets in.

Turned my head to want something different  
Hope she wakes up and finds something missing  
If there's a chance for some reunion  
If there's a chance you know just where I'll be.
