We've been here before
I know it's getting late
But we can't walk away
We walk around this room
So angry and upset
There ain't no giving in

Tell me what you feel
Just get it over with
Why can't we let it go
Cause baby we can win

So lets take the words that we said
And lay them all out on this bed
It's all right, it's all right
Baby we can't go to sleep like this
Can't say goodnight without a kiss
It's not right, it's not right
Cause i don't wanna go to bed angry tonight

We don't wanna fight

But still we say the words
That cut so deep it hurts
We take out different sides
But both of us are wrong
Can't break thru the wait

Can't we talk it out?
Let's get it over with
Why are we holding back?
Cause we can't love like this

So let's take the words that we said
And lay them all out on this bed
It's all right, it's all right
Baby we can't go to sleep like this
Can't say goodnight without a kiss
It's not right, it's not right
Cause i don't wanna go to bed angry tonight
