There was an ember in the wind
The first time that we met
It was bring bright light
I will never forget

The way you looked at me
The way you said my name
Of I felt a spark
Across my heart
Started up this crazy thing

Spreading like wildfire
Out of our control
Spreading like wildfire
Have to let it go
There's no way we can stop it
These flames we can't put out
Spreading like wildfire, wildfire

And there's no way of knowing
Which what it's gonna turn
Or what we're headed for
Just gimme more
And baby let it burn

Spreading like wildfire
Out of our control
Spreading like wildfire
Have to let it go
There's no way we can stop it
These flames we can't put out
Spreading like wildfire, wildfire

The feelings that surround us now
Are closing in we can't get out
Can't escape this moment
Love is all around

Spreading like wildfire
Out of our control
Spreading like wildfire

Have to let it go
There's no way we can stop it
These flames we can't put out
Spreading like wildfire, wildfire
