"After Dark"

There is not anything I would not do to ease your
troubled mind
Where you are, there is a different feeling
I wake up, I'm on the ceilin', opens up your eyes
What a shape, someone you can't forget for any time
Oh, let me show you mine immediately

After dark where the lights start fading sweet and low
I wanna be there, I wanna be there
We leave immediately
After dark where the lights start fading sweet and low
I wanna be there, I wanna be there
We leave immediately, after dark

There is no limit that I would not go if I could lie beside
Where you are, there is a different world out there
Love in the jungle can be hard to realize
What a shape, someone you can't forget for any time
Oh, let me show you mine immediately

CHORUS

There is not anything I would not do to ease your
troubled mind
Where you are, there is a different feeling
I wake up, I'm on the ceilin', opens up your eyes
What a shape, someone you can't forget for any time
Oh, let me show you mine immediately

CHORUS
