When I go to sleep and I pray to be in yours
When I talk a bit pillow full o' spit I'm yours
When I cave away it's so I can say I'm yours
Single file is our fav'rite style but still I'm yours

When I make a deal it's so I can steal all yours
When I'm stormin' thru turnin' black to blue I'm yours
When I check you off nearly every box I'm yours
I'm awake to this you turn on and sh*t I'm yours

I hope
I glow

Why don't you get off and get on your way
Why don't you get off and get on your way
Why don't you get off and get on your way
Or shut me up and stay
Stay

When I go to sleep and I pray to be in yours
When I talk a bit pillow full o' spit I'm yours
When I cave away it's so I can say I'm yours
Single file is our fav'rite style but still I'm yours
Single file is our fav'rite style but still I'm yours
Single file was our fav'rite style but now I'm yours
