"MY FAVORITE REGRET"
(Gibbs/Hurley)

Will you be my favorite regret,
Could I be your sweetest mistake?
Trade one step back for two ahead
Just a little time that's all
Don't be afraid to fall
This catch I won't forget,
My favorite regret.

Won't you let me chip away the stone
Are you really better off alone?
Won't you let your guard down one more time
Just like I've done mine
We'll look until we find something neither will forget
My favorite regret

My favorite regret

Will you be my favorite regret?
Cut the strings attached but save the thread
And I know your feelings are probably right
But just this once tonight
As you lay in your bed
Place a little on this bet
My favorite regret
