Sometimes I'm up  
Sometimes I'm down  
Other times I'm probably found  
Somewhere between a pair of huge  
Speakers pushed by vacuum tubes

Let it down  
Watch it go round and round  
Here I've found that I'm alright

If you're happy and you know it  
Turn the volume up and blow it out  
If you're happy and you know it  
Turn the volume up and blow it out  
Blow it out  
Blow it oooooout  
Blow it out

You could be my guiding light  
Shining in the vinyl bright  
To help me find a place that's best  
Where I can lay my arm to rest

Let it down  
Watch it go round and round  
Here the sound now I'm alright

If you're happy and you know it  
Turn the volume up and blow it out  
If you're happy and you know it  
Turn the volume up and blow it out  
Blow it out  
Blow it out  
Blow it out  
Blow it oooooout  
Blow it out!
