

Features, The "Exhibit A"

Visit "[Exhibit A](#)" on MotoLyrics.com

I know you think it's funny
When I speak sweet to you
So laugh all you want to honey
Because what I say is true

You can take a look inside my heart
You'll find a little fire
Observe the potential it displays
Notice from time to time
The flames will climb even higher
I present to you Exhibit A

This aint no secret mission
I'll tell you what I plan to do
I know your hearts suspicion
So I'll prove my love to you

You can take a look inside my heart
You'll find a little file
Observe the potential it displays
Notice from time to time
The flames will climb even higher
I present to you Exhibit A
