"My Little Phoenix"

Visit "[My Little Phoenix](#)" on MotoLyrics.com

Gracefully she's circling higher
She has the wind beneath her wings
And looks down on us, she said

Robbed of my innocence
Had no more time to play
I sure got my feathers burned
But I'm stronger than the flames

Here she comes, here she comes
I've been waiting for so long
Here she comes, rose again from the flames
My little phoenix

Eternity is set in her eyes
Throwing sparks back at the world
That'll never die and I think

She was robbed of her innocence
Had no more time to play
She's only a little girl
But she's stronger than the flames

Here she comes, here she comes
I've been waiting for so long
Here she comes, rose again from the flames
My little phoenix

Here she comes, I've been waiting
For my little phoenix

You've got to get close to the flame
To see what it's made of
You've got to get close to the flame
To see what you are made of

Here she comes, here she comes
I've been waiting for so long
Here she comes, rose again from the flames
My little phoenix
