"Until Dawn"

Lonely nights I think of you.
My life, my king and my land.
Land of war will turn into light.
Divine light will give us strength.
Sunlight divine cover my land.
Angels of light take care of us.

Still darkness surrounds myself.
Among the trees I saw the gates of hell.
I hear that someone screams my name.
Devil claims for my life.
Sunlight divine give me the strength.
Angels of light show me the way.

Flying up in the sky.
Riding through the wind.
Until dawn things won't change at all.
Strange sensations,
fighting the evil in my heart.
Angels of light help me save my land.

Stars guide me in this night.
Light my way to fight the dark God.
I pray to you one more time.
With your help I'll save my land.

Sunlight divine cover my land
Angels of light take care of us.

Flying up in the sky.
Riding through the wind.
Until dawn things won't change at all.
Strange sensations,
fighting the evil in my heart.
Angels of light help me save my land.
