

Feeling, The "I Did It For Everyone"

Visit "[I Did It For Everyone](#)" on MotoLyrics.com

Where are your friends? Silly thing
Lost down the Thames, whispering
What have you done? There's no smoking gun
How you were shunned
And still you sing

I did it for me
I did it for you
I did it for everyone
I did it for me
I did it for you
I did it for everyone
If sweet harmony, could spread like the flu
Then all of the world is singing it too
I did it for me
I did it for you
I did it for everyone

And what have you done

All of the good, sharing it
All of the bad, bearing in
Nobody cared, no-one was speared
Love makes you pay
For everything

I did it for me
I did it for you
I did it for everyone
I did it for me
I did it for you
I did it for everyone
If sweet harmony, could spread like the flu
Then all of the world is singing it too
I did it for me
I did it for you
I did it for everyone

If you want it
Baby use it
Mama said make your own kind of music

Well it starts with two, then three, then four
Hold on hard, can't take anymore
I'll never be the same, that's no shame

I did it for me
I did it for you
I did it for everyone
I did it for me
I did it for you
I did it for everyone
If sweet harmony, could spread like the flu
Then all of the world (everyone) is singing it too

(everyone)

If sweet harmony, spreading to you
Then all of the world is singing it too
I did it for me
I did it for you
I did it for everyone
