I found the switch
You turned it on
I hit the ditch
You carried on

I was so near
Now you're so far
Are you quite sure
Just who you are?

Oh, I-i-i-i-ih
Know you could use a friend
But you don't seem to have the time
Oh, and I-i-i-i-ih
I wonder if you ever get to say
What's on your mind

Well take a little time
Come on take a little time

I love it when you call
I love it when you call
I love it when you call
But you never call at all

So, what's the complication?
It's only conversation
I love it when you call
But you never call at all

(He loves it when you call)
(He loves it when you call)

Remember me?
I used to be
Your best time buddy
That you couldn't wait to see

We're gettin old
It takes its toll
And hearts getting broken

Leads to people growing cold

Oh, I-i-i-i-ih
I'm flippin with a coin
That's got a tail on either side
Oh, and I-i-i-i-ih
I'm gonna be the one
Who makes you stop and realise

You could have it all
Ye-eah, we should have it all

I love it when you call
(He loves it when you call)
I love it when you call
(He loves it when you call)
I love it when you call
But you never call at all

So, what's the complication?
It's only conversation
I love it when you call
But you never call at all

(He loves it when you call)
(He loves it when you call)

Yeah, I wonder where you've been
Yeah, and I wonder who you've seen
Yeah, I hope you find your dream
When you do, I really hope it's all it seems

I love it when you call
I love it when you call
I love it when you call
But you never call at all

Say what's the complication
It's only conversation
I love it when you call
But you never call at all
