Everyone knows it
Can you deny it
I was the only one for you
Everyone knows it
Cause we couldn't hide it
Nobody else got close its true
My love was stronger than you think
Much stronger now I've had a drink

Well
I hope you know that I miss you and I wonder where
you've been
And I wonder who you've seen and i hope that hes a
friend
Do I miss you
Do I miss you
Well I wonder where you've been and I hope you're with
a friend

Everyone knows it
So don't you deny it
We had it all laid out for two
Everyone knows it
Cause we couldn't hide it
I was the sea and the sky was you
All of a sudden the wind just changed direction
And that big black cloud came rolling in

Yeah
I hope you know that I miss you and I wonder where
you've been
And I wonder who you've seen and I hope that hes a
friend
Do I miss you
Do I miss you
I do
I wonder who you've seen and I hope that hes just a
friend
