Far from the light
To reach beneath a veil of mist
Countless stories
Were left to rest in peace
Darkened and calm
The grave uncared
Once a haven filled with hope
The archive of lost dreams
We send our inner fears
For the ocean to score
Waiting it takes them all
Away from the shore
Deepest beliefs
From billions of souls
Longing for our wishes
To find the way back home
Ah, Naiad
Last one in the unknown
The keeper of our written dreams
Ah, promises
None of them were left behind
She blessed them with her kiss
See, hear and feel
The miracle of life
Believe the signs
And trust you'll stay alive
Descend to find
The depth of your heart
Mysterious Naiad
Now the circle's closed forever
Ah, Naiad
Archive is gone
We are on our own
