"Tired Of Being Alone"

Once you dreamed of me, twice
You wish that I pull you out
You chose your life
And put me down
Still you don't understand

Tired of being alone.
What you have dreamed
Is not what I am, so far
Let me feel the one

Please understand me how I am
But I don't want to walk alone
I need your hands too on my soul

Tired of being alone (2Ä—)

I will do my best
To become your love
I'll try to feel the emptiness
In our hearts of so tired of being alone

Tired of being alone
I want to feel
I need to fall in love with you

Tired of being alone.
