

Fejr "Escape"

Visit "[Escape](#)" on MotoLyrics.com

NOW!

We will fight, fight until the death will arrive
We will kill, kill all the rich people in our sight

We will kill them all, we will make them die
We will kill them all, we will make them die

We are done with this war now, there's no rich people
on our sight
YAA!

We will kill them all, we will make them die
We will kill them all, we will make them die

The monster inside me are crawling out, gotta escape
The monster inside me are crawling out, gotta escape

We will fight, fight until the death will arrive
We will kill, kill all the rich people in our sight

We will kill them all, we will make them die
We will kill them all, we will make them die

We will kill them all, we will make them die, yeaw
We will kill them all, we will make them die
